

MADALA SIDDARDHA

QA Automation Engineer · Java · Selenium WebDriver · Cucumber BDD · Jenkins CI/CD

siddumadala99@gmail.com +91 9603182636 Bangalore, India LinkedIn

TECHNICAL SKILLS

CORE AUTOMATION

Selenium WebDriver TestNG
Cucumber BDD POM

PROGRAMMING

Java Core Java OOP SQL

BUILD, CI/CD & VERSION CONTROL

Maven Jenkins Git

TEST & DEFECT MANAGEMENT

JIRA Extent Reports
Cucumber Reports

TESTING EXPERTISE

Functional Regression Integration
Data-Driven

WAYS OF WORKING

Agile / Scrum SDLC STLC

EDUCATION

B.Tech in Electronics & Communication Engineering (ECE)

Sri Venkateswara College of Engineering,
Tirupati
2015–2019

AWARDS & RECOGNITION

KUDOS Award – Mphasis

Recognized for exceptional performance and consistently achieving high-quality client deliverables.

Multiple individual appreciations from HP client stakeholders for ownership, proactive communication, and high-quality test deliverables.

PROFESSIONAL SUMMARY

QA Automation Engineer with 5+ years of experience at Mphasis, specializing in **Java and Selenium WebDriver automation** and BDD using Cucumber. Built and maintained end-to-end test automation frameworks using **Page Object Model (POM), TestNG, and Maven**, integrated with Jenkins for continuous regression testing. Experienced in SQL-based data validation, defect tracking through JIRA, test reporting, and Agile/Scrum delivery. Delivered a **40% reduction in manual testing effort** on HP enterprise projects through reusable framework design and data-driven test coverage.

PROFESSIONAL EXPERIENCE

Software Engineer – QA Automation

Mphasis Limited, Bangalore | Client: HP (Hewlett Packard)

Sep 2024 – Present

- Designed and maintained an end-to-end **Java + Selenium WebDriver** automation framework using **TestNG, Maven, and Cucumber BDD** with Page Object Model, achieving a **40% reduction in manual testing effort** and improving regression coverage.
- Developed **data-driven test suites** using Excel and JSON data providers, enabling reusable parameterized test execution across multiple environments.
- Integrated the automation framework with **Jenkins CI/CD pipelines** to trigger automated regression suites on application builds, enabling earlier defect detection and faster feedback.
- Utilized **TestNG features** including grouping, prioritization, and retry analyzers; generated execution reports using Extent Reports and Cucumber HTML Reports.
- Analyzed automation failures, logged and tracked defects through **JIRA**, and collaborated with developers through defect resolution, retesting, and regression validation.
- Participated in **automation code reviews** and Agile/Scrum ceremonies with developers and product owners to support release readiness.

Associate Test Engineer – Manual & Automation

Mphasis Limited, Bangalore | Client: HP (Hewlett Packard)

Aug 2023 – Sep 2024

- Executed **functional, regression, and integration testing** for HP enterprise applications, identifying and documenting defects in JIRA.
- Transitioned repeatable manual scenarios to automation by developing Selenium WebDriver scripts using **Java and Page Object Model**, contributing to automation backlog reduction.
- Authored detailed test cases from business requirements and collaborated with cross-functional teams to resolve defects before production releases.
- Performed application-data validation using **SQL queries** and reported test execution status, defects, and quality metrics during Agile sprint reviews.

Trainee Associate Test Engineer

Mphasis Limited, Bangalore

Nov 2021 – Aug 2023

- Performed **manual functional and regression testing** for web applications across multiple test cycles, ensuring quality deliverables within sprint timelines.
- Developed Selenium WebDriver scripts in Java using POM structure, contributing to the team's growing automation suite and reducing repetitive manual test cycles.
- Managed test case repositories and defect lifecycle tracking in JIRA, maintaining traceability between requirements and test coverage.
